

## **“One Community” (Al-Ummah Song)**

**This is a place I call my home  
It's a place where I'm not alone  
Together, we reach higher than the sky.**

**Here in this place so far away  
We all learn something new everyday  
Oh I hope to God, the memories will never die.**

**So let's all share our joy and sorrow  
And as one we'll look out for tomorrow  
Living in brotherhood and unity.**

**Yeah this is the place I wanna be, Al-Ummah  
Here there is so much to see, Al-Ummah  
And there are memories just waiting to be made by you and me.  
'Cause at Al-Ummah we're all part of one community.**

**Here, from the morning until night  
Islam is our guiding light  
Showing us the way, to peace and harmony**

**Here, we all learn so much about living  
About caring and sharing and giving  
Oh I never thought I'd find such happiness in me.**

**So come my sister, come my brother  
Let's all join and help one another  
And let the good times come to us hand in hand, yeah.**

**Yeah this is the place I wanna be, Al-Ummah  
We play and pray in harmony, Al-Ummah  
It's a chance to get to know ourselves much better than before  
Makes me want to stay here with you more and more.**

**So gimme a smile it'll take me a mile down happiness' trail  
The love between us is so strong together we can never fail  
And there are memories just waiting to be made by you and me, yeah  
'Cause at Al-Ummah we're all part, at Al-Ummah we're all part,  
At Al-Ummah, we're all part of one community.**
